

Setting up Application Environment

Docker CLI Installation

Step 1. Download Docker from docker.com and install it by running the Docker

Step 2. Goto hub.docker.com register and create an account and login

The screenshot shows the Docker Hub sign-up page in a web browser. The browser's address bar displays 'hub.docker.com/signup'. The page features the Docker logo at the top. The main heading is 'Create a Docker Account.' Below this, there is a link for users who already have an account: 'Already have an account? [Sign In](#)'. The sign-up form includes fields for 'Username' (filled with 'skcet16'), 'Email' (filled with '19eucs139@skcet.ac.in'), and 'Password' (filled with '9346269129Ss.'). There are two checked checkboxes: 'Send me occasional product updates and announcements.' and 'I agree to the [Subscription Service Agreement](#), [Privacy Policy](#), and [Data Processing Terms](#)'. A CAPTCHA verification is shown with the text 'I'm not a robot' and a 'Sign Up' button at the bottom.

Step 3. Open Docker Desktop and start creating containers and images
